

About Us

We provide a bespoke, exclusive, quality product tailored to our client's specifications. Our product range includes burglar proofing, balustrades, stair cases both spiral and conventional, gates and mezzanine floors made from stainless steel, mild steel and wrought iron, and are constantly expanding to cater for current market trends.

Alex is a graduate from the University of the Witwatersrand with a BSc degree in Mining Engineering. He has more than 24 years' experience in the engineering field and his knowledge and expert designs have lead the company in all aspects from finance to fabrication and acquiring new projects. Our team of fabricators and installers have been in house trained to produce quality products and installations

Our emphasis has been to maintain a close personal relationship with clients in order to install confidence in our service and over the years Steel-Style has become a preferred supplier to several developers who produce upmarket residential and commercial properties.

Our client base is derived from property developers, architects, interior designers and home owners developing high end properties, were we have a strong reputation for high quality fabrication, design and reliability.

Steel-Style has undertaken projects throughout South Africa with recent production of balustrade components for export allowing us the opportunity to compete in international markets and distribute our professionally crafted products abroad.
